

Vestry Meeting Highlights May 15, 2019

Kathy Kent led the opening prayer and Pat Hodde spoke about how the Parent family's decision for organ donation extended their family into the lives of the recipients' families

Concerns from the congregation were dampness in the sacristy, absence of the Palm Sunday church procession, Joys and Concerns need to be louder, mold in the basement, flags need to be replaced, and ponding in the church lot and grounds.

Stewardship reported that we netted \$600 from the Fish & Chips Supper and that the dates for the Parish Potluck Barbeque (8/9), Thrill of the Grill (9/7), Stewardship Brunch (9/22), Beefsteak Dinner (10/26), and A Christmas Carol (12/7) have been confirmed. They proposed a wine and cheese pairing on Saturday, July 13 from 4:00 to 6:00 PM hosted by Steve Kent, which the Vestry approved. Mike Roehrer reported that we netted \$1,438.50 from the plant sale and that all donated plants were planted.

We gave thanks for Michael Kidney for potting the palms and seeing to their upkeep, for reconnecting the long disconnected speaker, and for helping to renovate the rector's new office; for the Altar Guild for their Easter altar display; for Gill for her Holy Week work; for Sondra Odian for being guest Vestry clerk; for all the Holy Week helpers and readers; for the Choir for their beautiful singing during Holy Week; for those who participated in Spring cleanup day; for Mike and Debbie Roehrer for heading up the plant sale; for Debbie Roehrer and Catherine Speed for doing the planting the day of the sale, and for Scott Ashton for taking crucifer training.

We reviewed and accepted the April Quickbooks reports.

We reviewed Jon Richardson's letter of agreement as amended by the Diocese.

We voted to retroactively approve 4 emergency plumbing repairs, and that the money to pay for them would come from the Whitehead bequest.

We voted to approve this year's David Hegg Award nominees.

Property Committee reported on what was accomplished on Spring cleanup day, on the emergency septic and plumbing issues, on the replacement of the rectory refrigerator which is malfunctioning, and noted that things put on hold because of the Spring cleanup and plant sale will now be focused on.

We amended and approved the June Calendar.

Respectfully submitted,

John Simonelli, Senior Warden
